DURACOTE[®] The World Leader in Aircraft Interior Products & Safety Materials

DURACOTE® PRODUCTS

DURA-SONIC®

AVIATION'S SOUND CONTROL LEADER

Dura-Sonic is a series of mass-loaded vinyls designed for use in insulation blankets, optimizing performance in noise reduction and advanced fire safety, meeting the vertical burn, FAR25.853(a), and/or radiant panel, FAR25.856(a) requirements.

These materials are manufactured to the specifications of Boeing, Lockheed, Bombardier, Embraer, and military aircraft, while also serving the MRO aftermarket.

DURA-TRIM®

THE LEADER IN AVIATION FIRE SAFETY

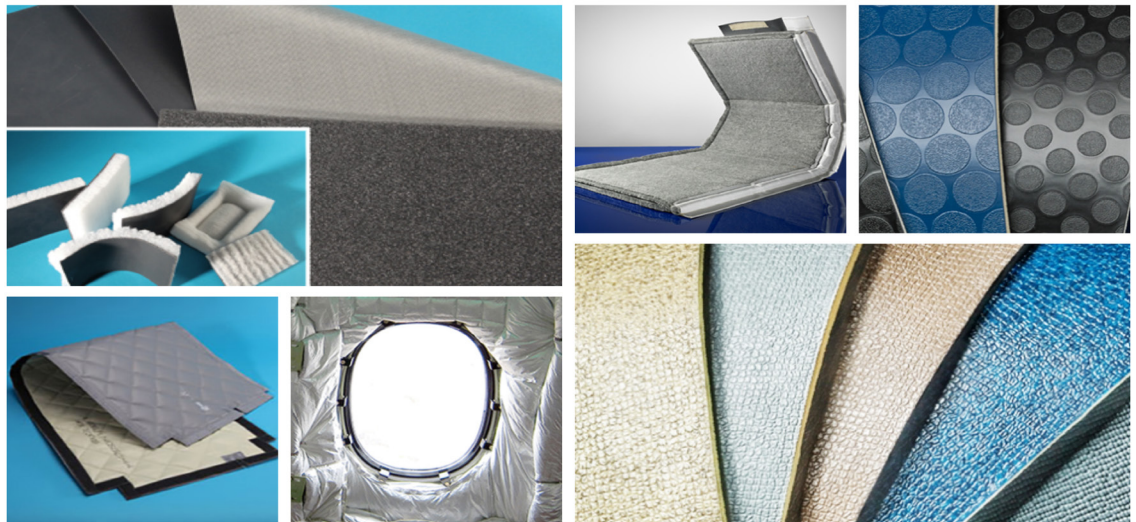

Dura-Trim insulation materials meet the growing demands of commercial, business and military aircraft for increased fire safety, lighter weight, and regulatory compliance.

Dura-Trim is the complete line of proven fire protective materials manufactured to Boeing, Lockheed and Military specifications - meeting the flammability requirements of either FAR 25.853(a) or FAR 25.856(a).

DURUG®

CLASSIC FLOOR COVERINGS FOR THE ENTIRE AIRCRAFT

Durug is the performance leader for today's aircraft interiors - both OEM and retrofit installation.
