

C-130 HERCULES

Repair, Service, Inventory

The C-130 is a tried and tested, mission-ready aircraft because of its capabilities, strength and versatility.

MHD-ROCKLAND is a leading provider of C-130 sustainment solutions. Backed by more than 40 years of experience and solid OEM partnerships, we can provide original OEM approved parts, supplies, replacements, repairs, and engineered products to support C-130 and L-100 military and commercial operators worldwide.

-  World-Class Fixed-Wing Spares & Parts Supplier
-  In-House Repair Shop for C-130 Components
-  Global Supply Chain Management

DEDICATED & CONSIGNMENT INVENTORY

MHD-ROCKLAND holds the largest privately owned spares inventory for the C-130 platform, from OEM approved structural components to airframe, hydraulic, and electro-mechanical spares.

With our dedicated inventory you can focus on the mission while we provide rapid access to C-130 specific assemblies, sub-assemblies and spare parts. Our experts can help you plan ahead based on your unique needs. MHD-R can also manage your inventory program, giving you more freedom and flexibility.

SUPPLY CHAIN MANAGEMENT

We offer complete supply chain solutions that include reliable logistical services and innovative customized programs. By combining your data with ours, we can create a winning procurement plan.

MAINTENANCE, REPAIR & OVERHAUL MANAGEMENT

MHD-ROCKLAND offers in-house repair and overhaul services (capabilities list provided upon request).

For the C-130 components that we do not complete in-house, we maintain a network of qualified repair stations. We invest in kitting for repairs, exchange pool options, and cost control through planning, as we manage repairs in compliance with Government regulations.

KITTING & FORECASTING

We design and prepare customized kit programs at a component level or for a fleet operator, all based on our over 40 years of history and enhanced by industry forecasting data. Benefits can include reduced delivery time and lower cost while increasing mission readiness for your fleet.

COMPLIANCE

MHD-ROCKLAND operates in full compliance with all applicable export controls including, the United States Directorate of Defense trade Controls International Traffic in arms regulations (ITAR's) and Department of Commerce Bureau of industry and Security's Export Administration Regulations (EAR's) and Arms Export Control Act (AECA), as well as Canada's Controlled Goods program (CGP), Export & Import Permits Act (EIPA), and Defence Production Act (DPA).
