

FLIGHT OPERATIONS

MHD-ROCKLAND Services and ESG Aerosystems have built a successful Flight Training Program for P-3C Operators at the Keystone Heights Airport in Starke, Florida. The Program focuses on Pilots, and Flight Engineers, from new Copilots to Patrol Plane Commanders, and everything in between.

With a fleet of five P-3C aircraft, plus a highly skilled and experienced team, MHD-ROCKLAND Services and ESG Aerosystems have been trusted providers of training services to U.S. and Allied fleets for the past five years.

Drawing upon the experience of its parent company, MHD-ROCKLAND Inc., which has made a notable contribution to the P-3 community for sustainment, and its partner ESG Aerosystems, a company with over 40 years of experience, Flight Operations is poised to make a significant impact in the future of the P-3 Orion and keep this aircraft flying for many years to come.
